

LABORATORY SERVICES SUBMISSION FORM

دانات
DANAT

DANAT provides gemmological laboratory services for pearls, gemstones, and diamonds. Please fill out this form to specify the services you require and to provide all necessary information and instructions regarding the item to be tested. Services included:

- **Identification:** The process of identifying a gem's species and variety as well as determining whether gem is natural, synthetic or cultured. If a gem is identified as natural, further tests will be conducted to determine if the gem is treated
- **Grading:** Certain gems can be further analyzed to determine quality
- **Origin:** The process of determining a gem's geographic locality or species origin
- **Sorting:** Grouping of gems in categories according to the criteria offered by DANAT for selected gems
- **Screening:** The identification and grouping of diamonds according to a melee diamond identification instrument
