DISCLAIMER

Treatment identification and grading are conditional and restricted to the extent that mounting allows. The estimated weight per stone represents the average weight estimate of the stones in the group. The results in this report are a professional opinion of the examined item and were obtained using techniques and equipment available to DANAT at the time of examination. The grading results are based on human evaluation. This report does not serve as a guarantee, evaluation, warranty, obligation, or investment recommendation.

Reports are specific to the item they pertain to and are embedded with security features to prevent forgery, tampering, and duplication. Reports are subject to DANAT's Laboratory Services Terms and Conditions.
